Professional Summary

I'm a Full Stack Developer with over 5 years of experience building web, mostly in fast-paced startup environments. I love working on both the front-end and back-end, and I'm comfortable with modern tools like React, Next.js, Express.js, Laravel, Codeigniter. My focus is always on creating high-quality, user-friendly solutions that scale well and perform even better. I enjoy tackling tough problems, learning new tech, and helping teams grow by sharing what I know. Whether it's building something from scratch or improving existing systems, I'm all about delivering results that make a real impact.

Technical Skills

- **Backend:** PHP (Laravel, CodeIgniter), Node.js (Express.js), Python (Django, FastAPI)
- **Frontend:** Next.js, React.js, Tailwind CSS, Typescript, Redux, HTML5, CSS3
- **Mobile:** React Native, Expo
- **Database:** PostgreSQL, MySQL, MongoDB
- **Tools & DevOps:** VPS, Vercel, Git, GitHub, GitLab

Professional Experience

- **Software Engineer at Comsoft Ltd**, Mirpur DOHS, Dhaka | *Nov 2023 – Present*
 - **Multivendor E-commerce:** Led the development of a large-scale e-commerce platform featuring vendor onboarding and analytics using Next.js, Express.js, and PostgreSQL
 - **Medivoyagers:** Developed a comprehensive medical tourism platform using **Next.js** and **Laravel**, facilitating doctor appointments and consultation services.
 - **System Architecture:** Designed scalable microservices and built a Warehouse Management System (WMS) for real-time inventory tracking.
 - **Performance Optimization:** Refactored backend code and optimized SQL queries, improving application load times by 20%.
 - **Cloud Infrastructure:** Manage server deployment and cloud infrastructure using VPS
- **Software Engineer at Intelligent Automation Technology**, Gulshan, Dhaka | *Feb 2019 – Nov 2023*
 - **ERP & Inventory Systems:** Developed and customized an ERP system and built an Inventory Management System using Laravel.
 - **Backend Architecture:** Focused on scalable API architecture and clean code practices following SOLID principles
 - **Fintech Integration:** Integrated multiple payment gateways including bKash, SSLCommerz, and Stripe for various platforms.
 - **Mobile Development:** Contributed to a Sales Mobile App using React Native for field team invoice and report management.
 - **Telecom Projects:** Built the Teletalk WAP portal and implemented VAS job alert services via USSD.

Selected Projects

Full-Stack (Next.js & Express.js)

- **Top Brand Outlet:** topbrandoutlet.co.uk – High-performance e-commerce solution.
- **Tukitaki Bazar:** tukitakibazar.com – Optimized e-commerce platform with MySQL backend.

Full-Stack (Next.js & Laravel)

- **Medivoyagers:** medivoyagers.com – Global Healthcare & Medical Tourism platform.
- **Eduvoyagers:** eduvoyagers.org – Educational consultancy and services platform.
- **Pilot Bazar:** pilotbazar.com – Scalable automobile e-commerce platform.
- **Orchard Business Services:** orchardbusiness.com.au – Professional services platform.

PHP & Laravel Specialized

- **Doctorspedia:** doctorspedia.co – Healthcare-focused responsive medical info portal.
- **Bangladesh Ambulance:** bangladeshambulance.com – Real-time emergency medical transport platform.
- **Teletalk WAP Portal:** wap.teletalk.com.bd – Mobile service portal for Teletalk users.

Job Alert(VAS SERVIC):

Implement Teletalk VAS job Alert service, allowing users to subscribe to job notifications through USSD code.

Education

Bachelor of Science in Computer Science and Engineering

Daffodil International University

May 2015 - Sep 2019

Higher secondary certificate

Comilla govt. College

2012 – 2014

Secondary school certificate

Shahrasti Model School

2012

Language

- Bengali: Native
- English: Fluent

Personal Interests

In my spare time, I enjoy exploring new technologies, contributing to open-source projects, and staying active with coding challenges. I'm also passionate about mentoring junior developers and sharing knowledge with the community.
